

How to Explain OA With the Spoon Theory

by NEWLIFEOUTLOOK TEAM

Understanding the Spoon Theory

Living with osteoarthritis (OA) is no easy task, and explaining how it affects you can be just as difficult. Many chronic illness sufferers find themselves explaining their conditions in order to make them more understood — but how do we do this?

Ever heard of the spoon theory? It was created by a lupus sufferer trying to explain what it truly feels like to have a chronic illness, and has been adopted by many sufferers across the globe.

Using spoons as a metaphor for energy, Christine Miserandino explained that everything she does in a day “costs” a certain amount of spoons — once she’s out, she’s out of energy. She used this metaphor as a way to describe just how much effort everything takes when you’re managing a chronic illness (or multiple).

what is Spoon Theory?

The **Spoon Theory** was created as a way for people with chronic illness to explain their experience to others.

= ENERGY

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

IN THE U.S. ALONE
there are at least
112 MILLION
people living with one or more
CHRONIC ILLNESSES¹

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

Despite this, there is still a lack of understanding towards sufferers.

HOW IT WORKS

When you have a chronic illness, you have a **limited number of spoons** for each day — and each task you complete costs a certain number of spoons.

Once your spoons are gone, they're gone.

Say you have **10 tasks** to accomplish in a day — like showering, getting dressed, going to work, etc. — and only **10 spoons** for that day.

Some tasks may require more than one spoon, so some things won't get done. You could dip into your spoons for the next day, but then you'll have even fewer spoons tomorrow.

The difference in being sick and being healthy is having to make choices... the rest of the world doesn't have to.²

- Christine Miserandino, spoon theory creator

AM I A SPOONIE?

The theory has a following of people with a range of conditions who call themselves **Spoonies**.

Conditions the Spoon Theory Applies to Include:

- | | |
|----------------------------|-------------------------|
| ★ Lupus | ★ Arthritis |
| ★ Fibromyalgia | ★ Diabetes |
| ★ Depression | ★ Cancer |
| ★ Anxiety | ★ Chronic pain syndrome |
| ★ Chronic fatigue syndrome | ★ Osteoporosis |
| ★ Multiple sclerosis | ★ COPD |

Show the Spoonies in Your Life You Care.
